**Invitation to the early diagnosis check-up:  
Daughter / son (first name, surname), \* (date of birth)**

Dear Ms / Mrs...../ Dear Mr.....

We are inviting all the children in Lower Saxony to the U5 to U8 early diagnosis check-ups. In the first years of your child's life it goes through many stages of development. That's why regular examinations are important. By going down this road, possible sicknesses or delays in development can be recognised in time, and be treated. The early diagnosis examinations are paid for by your health insurance, which means that they cost you nothing. Perhaps your health insurance has informed you already.

For your child, Hilde-Marie, the U\_ early diagnosis check-up is due and should be carried out by ..... ( date).

Please make an appointment with your doctor for the U\_ early diagnosis check-up within this period. For this appointment, please take the enclosed reply card with the attached declaration of consent with you. Your doctor will send the stamped and signed reply card back to us. Thus the state of Lower Saxony ensures that all the children in Lower Saxony get the examinations that are so important for their health. Should you have your child examined outside of Lower Saxony, we would request you to send us back the stamped and signed card from the doctor yourself.

If you don't want your doctor to transfer the data, then we would request you to send us back the card personally. However, the doctor has to have stamped and signed the card beforehand. If you happen to miss the early diagnosis check-up, you will automatically receive a reminder. If your reply card doesn't arrive here after the second deadline, we shall inform the Youth Welfare Office responsible. You see, we want all children to grow up healthy.

We wish you and your child all the best – especially health!

Your early diagnosis check-up team
